ADVANTAGES AND DISADVAN-TAGES OF EDUCATION.

Editor of the BEE:

When we consider the more than limited opportunities that are at present afforded us to make use of the education now acquired, the question arise, What is the sense of becoming educated? Does not this training of the mind inspire ambition which can't be quenched—can't even be aimed at? Does it not make us despise those those things to which we are obliged to resort in order to sustain life? In a word, it sets the brain afire, and seems to blot from life all hopes.

But yet admitting, as I do and must, that these are hard pains, let us stop and think. Are we to simply preserve ourselves from pain? Have not those who came before us suffered worse? Was it not for us that the same was endured?

If we feel so sensitively the disadvantage of not being able to satisfy our own hopes, will we allow theirs to go without our efforts to satisfy them? Again, you say the advantages are dreadfully limited Are there any means more powerful to keep them so than ignorance? Is there any condition which would make us less capable of meeting better advantages than igncrance? And lastly, is there any condition at this age of the world worse than ignorance? In my estimation, none. Therefore, let us become educated, regardless of the few ways we have of using it, and in spite of the pain such education compels us to en-

We only prove our ignorance by not making use of those advantages that are given us; more than this, we owe it to the race and to God to improve ourselves. Hence let us take all that There is an effort on the part of is now given us; by so doing, we fit some one to have a young boy appointed surgeon-in-chief of the Freedmens Hospital. THE BEE is of the opinion that the time is not come to have an institution like the many wished for favors through the many wished for favors, through the providence of God in His due time. If hee does not hold for us a realiza-

tion of our hopes, let us accept the same with all possible patience, hoping that we have done all in our power, and that the hard-endured pain may be the thorns plucked from the path of those who are to follow AGNES CARROLL.

REPUBLICANS DISCOURAGED - CAUSE OF THE SLUMP IN VOTES-NO CIVIL SERVICE 7 SENATOR FROM MARY- DIRECTORS: Matt. N. 1 ews, LAND-THE PARTY MAY BE DEFEAT-ED IN 1900.

Editor of the BEE:

Your editorial on civil service in the last issue of the BEE is true and to the oint If the administration intends to help the republican party to succeed in the future, it should begin now by revoking Mr. Cleveland's extension of the civil service rules. The republicans throughout the country (with the exception of a few office-holders, assistant democrats, mugwumps and psalm-singers) are disgusted with the wishy-washy, sickly sentimentalism on civil service of the present powers that be. The recent elections showed the You can get further handwriting on the wall

was saved by having Mr. Malster, an anti-civil service man, on the ticket for Mayor of Baltimore. Had Mr. Marburg, a civil service reformer, been allowed to stay as the republican nom inee for Mayor, the democrats would have carried the State and legislature. I see by the newspapers that Post-master-General Gary has the Senatorial bee in his bonnet; that he wants to succeed Mr. Gorman If he is, as reported, a civil-service reformer, he will not get the vote of the republicans of the Maryland legislature. Maryland voted heavily against and defeated the proposed civil service amendment to her constitution, and will send an anticivil service man to the United States Senate.

Should the present civil service policy of the national administration con-tinue, and Mr. McKinley should be renominated in 1900, the republican party will go down to defeat as sure as night follows day. We want the offices. We voted that

way last year. Turn the democrats out! Away with that un-American statute and the rules that are said to be made in conformity therewith, and the party will get together again to fight the common enemy and win glorious victories as in days of yore.

THE ANNUAL REPORT.

The youngest daughter of Mr. E. J. Webster, while playing on a fence Tuesday accidentally slipped off. The fence being a few inches higher than the child, it was caught under the chin by one of the palings, in which position she was held until released by some of her playmates. Dr. W. H. Madden was called, who pronounced the wound dangerous, and is doing all he can to relieve the little sufferer at this writing.

Gen. Speer then stated that he had been called upon to prepare the report of the board, which document was now ready for the President's signature. President Whelpley ordered that the report be read by Secretary Falck. After a lengthy, but logical and convincing, introduction, in which it is set out that the old method of teaching young children the alphabet and multiplication table, cramming "stuff" into their heads, the uses of which they know nothing, and driving them to Gen. Speer then stated that he had this writing.

The John Hay School will open learn things at a tender age that should be taught when older, is wrong, and should be abandoned, an appropriation is urged for the establishment of arrival of the other teachers, who have a course of manual training or kindergarten for the children just entering school. The proposed new learning or method of learning reverses the old method entirely. It begins as nature begins, the report says, with things be-

fore the symbol of things.
It is the opinion of the trustees that the children should first be taught the practical rudiments of life before they One our prominent young men, who begin a technical education. The trustees would like to have this course of manual training carried along with the book studies in all the

lower grades of the schools. The collectorship of Alexandria is sought after by all classes, color, and different shades of political opinion. It will be 'scooped, by a 'dark horse.' the salaries of the teachers should be Mr. John Smith, for many years a increased. It is stated that at the pres-

COMPULSORY EDUCATION.

The report continues that, while not recommending compulsory attendance of the children at public schools, it would be well to appoint persons to investigate cases of non-attendance in order that any one wishing to attend may not be neglected. The sanitary condition and health of the various schools is reported as exceptionally good. Much credit is due to Health Officer Woodward in bringing about such a desired condition of affairs, and pointed a very large crowd assembled the thanks of the board are extended at the Epworth League meeting last to him. The report closes with the request that the Commissioners carefully consider all the recommendations contained therein and to act on them as they best see fit.

THEY WERE DEMOCRATS.

Mr. Willis Menard and Mr. J. W. Thompson, of the government printing office, who were mentioned among the donors to a silver pitcher to Ex-Re-corder of Deeds Charles H. J. Taylor, pany. were proud for the country to know that they were good, honest and pure colored democrats at that time. Why should they now be anxious for this same country to believe that they are good, honest and pure republicans?
Mr. Menard took pleasure in writing

uncomplimentary articles to the Colored American concerning the colored republican printers being incompetent. Mr. Thompson is a very affable gentle-man who believes in democracy, and expressed his regrets, when the democratic party was in the power, that colored republicans could not see the folly of their ways. Of course the col-ored republicans were dismissed and are still out on the bricks, while these same colored democrats are in and laughing at the colored republicans for continuing to be fools by allowing them to remain in the places they should fill.
